Professional Summary

Software Engineer with a B.Sc. in Software Engineering, specializing in AI-powered applications, full-stack development, and real-time collaboration platforms. Proven track record of improving production efficiency by 35%, reducing analysis time by 60%, and building secure, scalable systems using React, FastAPI, Django, Spring Boot, PostgreSQL, Redis, and Docker.

Work Experience

Software Engineering Intern Alha grp LTD 2025-05-01 – 2025-07-31

- Developed and maintained 15+ RESTful API endpoints for an e-commerce platform using Spring Boot and PostgreSQL
- Integrated secure payment gateways and implemented robust order processing workflows, ensuring 99.9% transaction reliability

Projects

Resume Analyzer AI-Powered Platform

- Increased engagement by 40% with real-time AI analysis and multi-provider fallback across OpenRouter, Groq, Gemini, and DeepSeek.
- Reduced analysis time by 60% to under 3 seconds through Redis caching and database optimization.
- Built secure JWT/Bcrypt authentication, responsive analytics dashboards, automated career-content generation, and Docker Compose deployment.
- Containerized application services using Docker and configured CI/CD pipelines to automate deployment processes, while maintaining high test coverage through rigorous unit and integration testing.

SmartTask AI-Powered Project Management

- Reduced task completion time by 25% using AI task prioritization and workload-balancing recommendations.
- Enabled 50+ concurrent users with WebSocket collaboration and secured 100+ users through Admin/Manager/Member RBAC.
- Increased team productivity by 30% with analytics, reporting, and OpenAI-powered project-health insights.
- Deployed with Docker Compose and CI/CD pipelines, maintaining high test coverage.

Education

Adventist University of Central Africa (AUCA) – Kigali, Rwanda

B.Sc. Software Engineering

Skills

Frontend: React 18, JavaScript, Tailwind CSS, Framer Motion, Recharts, Axios

Backend: Python, FastAPI, Django, Java, Spring Boot, Node.js

Data: PostgreSQL, MySQL, SQLite, Redis, SQLAlchemy, Hibernate

DevOps: Docker, Docker Compose, Git, GitHub Actions, CI/CD

AI / Security: OpenAI, OpenRouter, Groq, Gemini, DeepSeek, JWT, RBAC, Bcrypt

APIs: REST, WebSockets, Postman, Swagger, CORS

Methodologies & Soft Skills: Agile, Sprint Planning, Code Review, Cross-functional Collaboration, Remote Communication, Problem-solving, Data Structures, Algorithms

Languages

English (Fluent)

French (Fluent)

Certifications

AWS • Cybersecurity • AI Prompt Engineering • Advanced Network Ops 2.0v (Internet Society) • Introduction to Python (Sololearn) • JavaScript Essentials 2 • Cisco Networking Academy
